

# WARRIOR Writers

## Sponsor a Veteran

Warrior Writers is a community of veterans and artists that aims to generate awareness about and bear witness to veterans' experiences of war. Warrior Writers promotes healing and re-integration for soldiers returning from war by building a supportive community and providing veterans with a creative outlet. Veterans build creative community around their shared experiences and supporters take an active role in the re-integration process. Warrior Writers events include writing and art-making workshops, allies training and training in workshop facilitation, art shows and performances, and sessions in massage, yoga, reiki and acupuncture. Veterans have described our events as "life-saving" and "transformative," but we can only work in so many places at once. Many veterans need help traveling to events and finding lodging, and we need help to supply workshop materials such as books and art supplies. With your generous support we can provide veterans with what they need to attend our events. We greatly appreciate your heartfelt support for veterans working to heal our world.

Veteran's name \_\_\_\_\_
