

WARRIOR *Writers*

The Warrior Writers Workshop provides a safe space for Veterans to tell their own stories, using prompts and discussion covering a variety of military issues and experiences.

This workshop encourages sharing stories, opinions, and ideas for productive writing, reflecting, storytelling, and art-making. A highlight of this workshop for many Veterans is having a space to release bottled-up thoughts and emotions alongside others who understand, creating a sense of empowerment in the ability to tell their own story. Warrior Writers is for all Veterans, regardless of era, combat, deployment or experience with the arts.
